CAREER OBJECTIVE

B.E. graduate with approximately 2 years of professional experience in software development, now looking to build a career in digital media and content creation. I am genuinely interested in creative work such as social media content, video editing, visual storytelling, branding, and AI-assisted creativity. This is an area I enjoy and feel personally connected to. I am a fast learner, highly motivated to learn industry-standard tools and workflows, and eager to contribute to a creative team while continuously developing my skills.

CREATIVE & SOCIAL MEDIA EXPERIENCE

inevitable_l.i.f.e_view — Instagram Content & Creative Project

- Developed and managed a motivational/creative Instagram page focused on short-form visual content and edits.
- Created Reel concepts involving scene selection, pacing, captions, hashtags, and visual presentation.
- Worked on page identity, branding, watermark concepts, profile visuals, and consistent content presentation.
- Created AI-assisted visual concepts and developed prompts for social media creatives.
- Experimented with cinematic storytelling, motivational themes, movie-inspired edits, and audience-focused content.
- Iterated on creative ideas using editing, design, and AI tools to improve visual quality and presentation.

CREATIVE & TECHNICAL SKILLS

- **Social Media:** Instagram, Reels, content ideation, captions, hashtags, page branding
- **Video & Design:** CapCut, Canva, Adobe Photoshop, PowerDirector
- **Currently Exploring:** Adobe Premiere Pro, Davinci resolve
- **AI & Creative:** ChatGPT, AI image-generation tools, prompt-based visual creation
- **Creative:** Visual storytelling, cinematic editing concepts, typography/layout, branding
- **Technical:** Java, Spring Boot, Hibernate/JPA, React.js, REST APIs, SQL/MySQL, Git, Docker

PROFESSIONAL EXPERIENCE

Java Full Stack Developer — Previous Professional Experience

- Approximately 2 years of experience developing and maintaining enterprise applications.
- Worked with Java, Spring Boot, Hibernate/JPA, REST APIs, React.js, SQL and MySQL.
- Developed workflow-oriented and data-driven applications with a focus on problem solving and attention to detail.
- Worked in an Agile environment and collaborated with team members during development, testing, issue resolution, and delivery.
- Built practical experience in learning new technologies and adapting to project requirements.
